Dear Held lovers

For over 76 years, Held has stood for innovative motorbike clothing, maximum comfort and uncompromising safety. We always look to the future, never forgetting our roots – **quality is our tradition.**

Especially because the current year once again presents us with great challenges, we are all the more pleased to be able to present you with the Workbook 2023, a very attractive collection featuring a

successful mix of „old acquaintances“ and innovative new products. We have calculated all prices very tightly and made it possible to offer important top sellers, such as the textile jacket 4-TOURING II (➔ 034), at unchanged prices.

The layout of this year's Workbook has changed somewhat: the QR codes in the picture provide you with a lot of additional information online. With your Webfashion access, you will find helpful tutorials, appealing videos, product photos and 3D views as well as detailed explanations of technologies and materials. Particularly practical: the QR code takes you quickly and easily to the ordering process.

As a special highlight in the **SPORT** section, we will also be offering our top-featured leather suit SLADE II (➔ 010) as an attractive women's model in future.

With the AKIRA RR (➔ 107), we offer a high-quality sport glove for ambitious motor sports enthusiasts with an unbeatable price-performance ratio.

The new touring boot VENTUMA SURROUND GTX (➔ 127) is a real innovation not only for all **TOURING** enthusiasts: the featured GORE-TEX Surround® technology ensures perfect ventilation and maximum wearing comfort.

With our textile combination OMBERG TOP & BASE (➔ 028) another top outfit joins the **ADVENTURE** family. The Gore-Tex 3L laminate for rainy days and 3D Air-Mesh inserts, as well as versatile ventilation options, make the brand new Adventure Outfit the perfect all-rounder.

The new **URBAN** collection is also impressive. In addition to leather and textile jackets, such as the stylish MIDWAY soft cowhide jacket (➔ 019), we continue to rely on ARMALITH® – „The world's strongest Denim“ – with the CREEK urban trousers (➔ 043).

See for yourself the many other new products on the coming pages.

Finally, an important note: the Corona pandemic and the Ukraine crisis continue to cause great uncertainty in the procurement market. It is therefore imperative to place orders early. Only in this way can we ensure that the desired items are available in the shop at the right time.

We hope you enjoy the Held 2023 collection.

Yours

Markus Held
