variety of sizes &  
comfort.

## AUTHENTICITY

We make  
products  
by motorcyclists  
for motorcyclists.

**SURF THE DIRT!**

Motocross demands perfection

The new Trigger MX Jersey 2.0 from iXS is made of a new, extremely stretchy and light material. It is the result of iXS and the well-known MXGP Pro rider Arnaud Tonus (CH), as well as his hostettler Yamaha Racing MXGP team-mate Valentin Guillod (CH). Thus, the jersey was developed in close cooperation with racing professionals for racing. The incorporated four-way stretch guarantees a flutter-free fit with unrestricted freedom of movement, besides that the breathable stretch material ensures maximum comfort.

# iXS- BODYCOOL PRODUCTS

The iXS Bodycool vest keeps you cool for up to eight hours, depending on temperature and humidity, by means of evaporation underneath a mesh jacket. It consists of an antibacterial material. The lower part allows more freedom of movement thanks to its stretchy, breathable mesh.

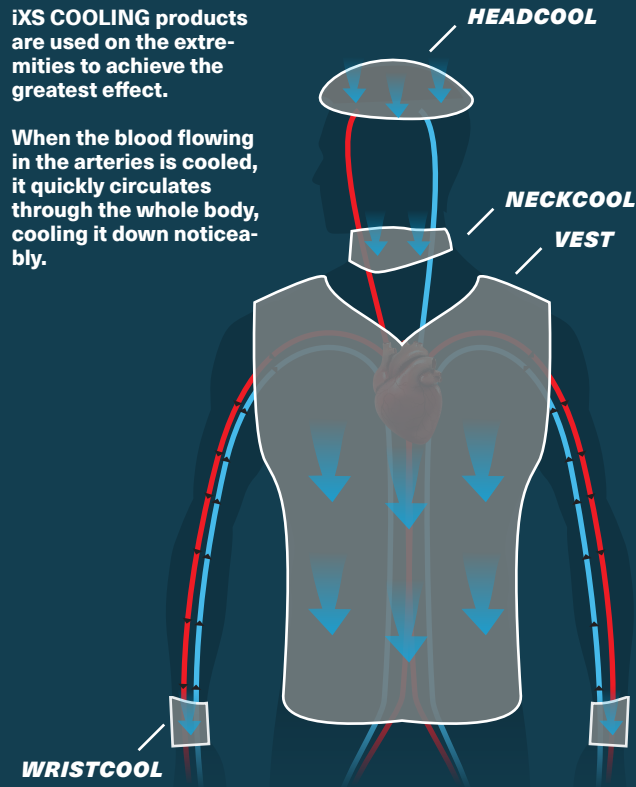

**Use:**  
This product works best in low to moderate humidity. The amount of airflow determines the cooling effect.

**Care/cleaning:**  
Machine wash at 40 degrees Celsius. Hang only when dry; do not iron, no dry cleaning, do not use industrial laundry facilities, do not bleach.

**Function::**

- Simply soak the vest in water for a maximum of two minutes. Squeeze out any excess water (but do not crumple). The vest is now ready to wear.
- The cooling effect is produced by evaporative cooling and it lasts for up to eight hours, depending on the ambient temperature, humidity and airflow.

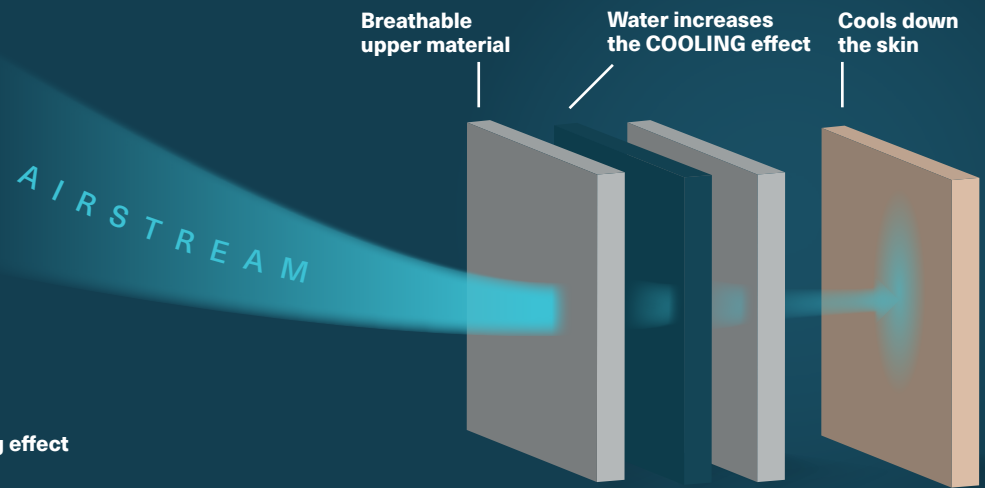

**Please note:**  
Wearing a backpack may reduce the functionality of the system. We therefore recommend using a backpack with a ventilation system.

iXS COOLING products are used on the extremities to achieve the greatest effect.

When the blood flowing in the arteries is cooled, it quickly circulates through the whole body, cooling it down noticeably.

iXS-**BODYCOOL DRY VEST**

Body cooling

- By evaporating under a mesh jacket, the iXS-Bodycool Dry Vest cools down between 8 hours and 3 days depending on temperature and humidity.
- Antibacterial finish
- Zipper with handy Zip handle makes it easy to put on
- Side panel with a stretchy and breathable mesh for more freedom of movement
- Extra pocket on the back with preparation for the drinking system (X99563)

Application:

- This product performs best in low to mediumhumidity
- The level of airflow determines the cooling effect

Operation:

Close the ziplock and distribute the water evenly through the comple-te product.

- Open the ziplock and fill with max. 600ml / 20.3 oz water. DO NOT OVERFILL!
- Squeeze out any excess water and air
- Enjoy immediate cooling

Care/cleaning:

- Machine home wash 40°C / 104°F (with closed ziplock), use mild deter-gents. Hang dry only. No ironing, no dry cleaning, no industrial laundry and no bleach

Attention:

- In wet condition: Do not store without ventilation
- In dry condition: Unlimited dry and dark storage
- Carrying a backpack may reduce the functionality of the system
- A backpack with ventilation system is therefore recommended

HOW TO KNOW YOUR SIZE?

WAIST

With women, take the measurement of the narrowest part of the waist, with men, measurement from slightly below the navel.

CHEST

Measure the widest part of the chest, directly beneath the arms and across the shoulder blades.

HIP

With women, take the measurement of the widest part of the hips, measurement from below the waist.
